

COVID-19 Statement

We share in your pain and suffering from this terrible pandemic. Something that I hope we will never see again in our lifetimes. This virus has affected everyone in some way.

As a company that has been providing wait list management applications, messaging platforms and gift cards for over 5 years to restaurants, hotels and attractions, we are here for you.

We are offering our services at a reduced rate for a limited time to help your business manage SOCIAL DISTANCING while waiting for pick-ups; as well as uploading your table layouts, once restaurants and other establishments can reopen. We can help you manage each level of reopening whether 10 people, 50 people or more.

As businesses begin to re-open SOCIAL DISTANCING will play a huge part in whether customers will return. Using our automated time tracking for food orders or tables, we can assist in keeping customers at bay until their food or table is ready. We are opening our services up to bars, nightclub, bowling alleys, or anywhere that needs a wait list management tool.

Even with a reservation system you need to control crowds and using SeatQ you can alert your customer that their table, food, coffee or items are ready to pick up. Messaging customers that their food is ready makes it easier.

Currently we are offering our services for \$15/month, with a 15-month contract with the first 3 months being free. If you are a small restaurant or coffee shop with one location we will waive all fees for the first six months. Let us know how we can help, if you need a menu and ordering service.

You will be billed at the end of each month. After 15 months, we will go to \$49/month for less than 10,000 messages a month.

Best Regards and Be Safe,
